

NOW ON MOBILE

Arealytics Pro is now on your phone.

Search, verify and save —
on-site, in the car, in the client
meeting.

App Store & Google Play

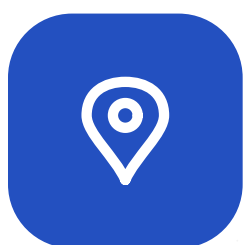

[START HERE](#)

It picks up where you left off.

Search Property, Sales and Lease Transactions, and Sale and Lease Listings

Type-ahead on addresses, cities and postcodes

Recently viewed properties and recent searches, one tap to re-open

National and multi-market subscribers switch market from the header — NSW, VIC, QLD, WA, SA

FIND IT FASTER

Same search. No reset.

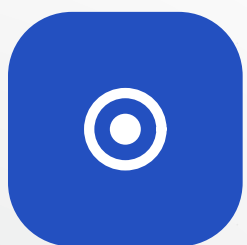

Toggle between map and list without losing your search or filters

Switch search type from a floating pill — no menus

Move the map and the results update as you explore

Tap any pin for key stats and market evidence at a glance

DEPTH

The full record, not a summary.

Key data points up front

Four market evidence tabs — Sales Transactions, Sale Listings, Lease Transactions, Lease Listings

Matched only / Show all separates your criteria from the complete record

Strata and complex assets: every lot and child building, a tap away

YOUR WORKING SET

Save it. Note it. Come back to it.

-  Favourite any property or search
-  Name your saved searches so they're waiting next time
-  Add notes — client interest, ownership detail, market context
-  Notes persist between sessions

ACT ON IT

From the listing to the call.

Agent contact inline on Lease and Sale Listings

Tap to call or SMS

Open an email with the subject and body already filled in from the listing
